THIS IS HOW

We improve access to nutritious food and quality health education and services so people have the resources they need to lead healthy lives. Together, we can improve health and well-being for all.

NUTRITION AND FOOD SECURITY

- Healthy food is essential for thriving communities, so we tackle the root causes of hunger to make good nutrition accessible for all.
- By ensuring families can afford groceries, we help prevent the trade-off between healthy meals and other basic needs.

MENTAL HEALTH SUPPORT

- Mental health is as vital as physical health, and we work to break stigma and strengthen community support.
- By partnering with local organizations, we expand access to mental health resources and promote resilient, thriving communities.

SUBSTANCE * MISUSE RECOVERY AND PREVENTION

- Substance misuse harms individuals, families, and our community, but healing is possible with prevention, treatment, and long-term recovery support.
- We invest in compassionate, community-led programs to build strong, judgment-free networks and resources for recovery.
